**FOR IMMEDIATE RELEASE**

## **Coast Southwest and CrossChem Reach National Distribution Agreement**

*Coast Southwest named as exclusive marketing and sales organization for GlyAcid®*

**Placentia, CA (April 22, 2015)** Coast Southwest announces a national distribution agreement for the exclusive marketing and sales of CrossChem's GlyAcid® product line to the personal care market effective March 30, 2015.

"Coast Southwest brings more than thirty years of specialty chemical distribution experience to the personal care market," said Traci Cassell, Coast Southwest market development manager. "We are continuing to expand our capabilities to better serve existing and future customers through partnerships and far-reaching distribution agreements with innovative companies like CrossChem."

GlyAcid® is the new global standard for high purity glycolic acid. CrossChem's state-of-the-art process and proprietary saponification technology produces a commercially available glycolic acid that is formaldehyde and formic acid free.

"Coast Southwest's staff of seasoned technical sales representatives and formulation chemists coupled with local warehousing and delivery provide best-in-class service," said Jeffrey D. Weeks, CrossChem vice president.

"We are delighted to have their engagement and support in bringing the GlyAcid® brand to customers across the country," said Mr. Weeks.
