### SUPPLIERS

<sup>1</sup>Coast Southwest, Inc., <sup>2</sup>Medolla Limited, <sup>3</sup>Tea Guys<sup>®</sup>, <sup>4</sup>3V Inc., <sup>5</sup>Clariant, <sup>6</sup>Sharon-Laboratories

### PROPERTIES

**pH:** 6.0-6.5

**Viscosity:** <100 cst

### PROCEDURE

**Phase A** – Add Phase A to main vessel with shear mixing. Note: Allot time for jasmine powder to solubilize. **Phase B** – Add Phase B in order to main vessel under shear mixing allowing each material to solubilize. Once uniform, transfer to appropriate spray container.
