

## KISS MY LIPS GLOSSAMER<sup>™</sup> GLOSS

With Glossamer<sup>™</sup> L6600's film-forming properties and the water resistance that Olivatis<sup>™</sup> 12 brings, this lip gloss is extremely moisturizing, delivering a glossy shine without a tacky or heavy feel. The long-lasting color, a rich deep magenta without purple undertones, is very vibrant and trending.

### PHASE A

<b>Creagel<sup>®</sup> Crystal HPB<sup>1,2</sup></b> (Hydrogenated Polyisobutene (and) Ethylene/Propylene Copolymer)	46.15%
<b>Castor Oil<sup>1</sup></b> (Ricinus Communis (Castor) Seed Oil)	2.00%
Panalane <sup>®</sup> L-14E (Hydrogenated Polyisobutene)	20.00%
Panalane <sup>®</sup> H-300E (Hydrogenated Polyisobutene)	14.00%
<b>Glossamer<sup>™</sup> L6600<sup>1</sup></b> (Brassica Campestris (and) Aleurites Fordi Oil Copolymer)	2.00%
<b>Vitamin E<sup>1</sup></b> (Tocopherol Acetate)	1.50%
<b>Olivatis<sup>™</sup> 12<sup>1,3</sup></b> (Polyglyceryl-3 Pentaolivate)	3.50%

### PHASE B

Sucralose (Sucralose)	5.00%
Flavor	QS

### PHASE C

<b>Creastar<sup>®</sup> Manhattan Primary Capulet HB WL100<sup>1,2</sup></b> (Calcium Aluminum Borosilicate (and) Titanium Dioxide (and) CI15850:2 (D&C Red 6 Ba Lake) (and) Polymethylsilsesquioxane (and) Methicone)	1.25%
<b>Creastar<sup>®</sup> Intense FM Red Intense WL20<sup>1,2</sup></b> (Titanium Dioxide (and) Synthetic Fluorophlogopite CI75470 (and) CI42090 (and) CI19140 (and) CI61570)	4.60%

### SUPPLIERS

<sup>1</sup>Coast Southwest, Inc., The Innovation Company<sup>®</sup>, <sup>3</sup>Medolla Limited

### PROPERTIES

**pH:** NA

**Viscosity:** spindle 4.0 at 10.0 rpm = 15,000-18,000

### PROCEDURE

**Phase A** – Add Phase A to main vessel with slow shear mixing. **Phase B** – Add Phase B to main vessel with continued slow mixing. **Phase C** – Premix Phase C and add to main vessel with slow shear mixing. Once uniform, transfer to final container.
