

INNOVATION REDISCOVERED

from the rainforests of British Columbia, Canada

Kisolite[®] BMP Biogenic Mineral Powder is a rich mineral matrix of geologic and biogenic origin. It has been used for centuries for its healing properties by local indigenous peoples.

Kisolite[®] BMP has unique physical properties making it ideal for spa and topical skin care formulations.

Kisolite[®] BMP is an abundant source of naturally occurring mineral micro-nutrients including Silicon, Iron, Calcium, Magnesium, Potassium, Zinc, and others. These are proven to be essential for the oxygenation, hydration, regulation, and regeneration of epithelial cells and are key to maintaining balance of our skin microbiome.

Kisolite[®] BMP is ethically sourced, safe, chemical- and preservative-free, and odorless. Samples to multi-ton orders are available from a distributor in your area.

Kisolite[®] BMP 20 kg Box
