A NATURAL FIT FOR BEAUTY AND SCIENCE

The market for natural, green, organic, and sustainable products and ingredients continues to soar each year bringing new challenges and exciting new solutions. As an industry leader in technologically advanced ingredients, Coast Southwest searches for the most innovative, bio-based alternatives to help formulators deliver unique products to the fastest growing segments of personal care.

When it comes to products with natural attributes, Coast Southwest understands formulators' challenges and customers' preferences. We are constantly expanding our selection of naturally derived and mindfully produced ingredients, satisfying a marketplace that is more discerning and demanding than ever before.

Consumers have a heightened focus on health, safety, and environmental awareness. Sustainability matters. So do performance and quality. Contemporary requirements call for sophisticated formulations.

With our formulating expertise and marketing flair, Coast Southwest can put our fresh, novel chemistry and decades of ingredient experience to work for you.

OVER THREE DECADES OF PERSONALIZED SERVICE

Coast Southwest has over 30 years of experience in fostering real partnerships. From our suppliers through our people, our culture, and into the products you create, we deliver outstanding quality and exceptional customer service in everything we do.

DISCLAIMER

The definition of what is natural or what constitutes natural content is not settled for personal care contexts; its meaning varies within the consumer sector, the industry itself, and industry governing bodies. Colloquially, understandings differ as well.

The products in this brochure are presented exclusively for your consideration. The ingredients have been selected because each has, at least in part, a biological origin or component. No information herein may be relied upon by the user for natural product claims.

The suitability to claim any product as natural is solely the responsibility of the user.

Astaderm™ acts as an environmental shield, maintaining skin barrier function and hydration, while inhibiting activity of skin-degrading enzymes: Hyaluronidase, elastase, and collagenase.

ASTADERM™

Astaderm™ is a natural, multi-functional, skin active ingredient that protects and improves the appearance of skin. It is a purified Polysaccharide derived from the red microalgae (*Porphyridium cruentum*) using a natural process free of harmful chemicals, additives, and solvents. Astaderm™ benefits both surface skin and deep skin layers, helping to reduce skin roughness and the length and depth of fine lines. It is available in a liquid format.

BAMBOO SILICA

Bamboo Silica powder is processed from fast growing, sustainable bamboo grasses with woody stems. This product's whiteness makes it particularly desirable in scrub formulations where light colored exfoliants are preferred. Bamboo Silica offers an ultra high-pure, environmentally friendly, and GRAS alternative to commonly used micro-plastic exfoliants.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Bamboo Silica	INCI: Bambusa Arundinacea Stem Extract	Powder	Exfoliator for personal care formulations

COLORMAKER

ColorMaker is a line of natural colorants for personal care. ColorMaker meets the need of coloring personal care products with natural color additives by developing shelf stable, custom, natural color blends that aid product development by making it easier to achieve a decided color target.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Natural Carmine Red Color	Carmine, water soluble color additive	Liquid	Lotion, moisturizer, soap, body scrub, hand cream
Natural Dark Green Color	Chlorophyllin, water soluble color additive	Liquid	Lotion, moisturizer, soap, body scrub, hand cream
Natural Golden Brown Color	Caramel Color, water soluble color additive	Liquid	Lotion, moisturizer, soap, body scrub, hand cream
Natural Light Green Color	Chlorophyllin, water soluble color additive	Liquid	Lotion, moisturizer, soap, body scrub, hand cream
Natural Red Radish Color	Raphanus Sativus, water soluble color additive	Liquid	Lotion, moisturizer, soap, body scrub, hand cream
Natural Sky Blue Color	Spirulina Platensis, water soluble color additive	Liquid	Lotion, moisturizer, soap, body scrub, hand cream
Natural Yellow Color	Beta-Carotene, water soluble color additive	Liquid	Lotion, moisturizer, soap, body scrub, hand cream

ENDIFOAM® FB SERIES

Endifoam® FB Series is a family of foaming agents and foam boosters that are based on a patented mixture of vegetable carbohydrates. They are produced through the hydrolysis of corn starch and combined with high performing mild surfactants in ratios optimized for peak performance. These products are highly concentrated, aqueous multi-purpose additives for boosting foam volume and stability, adding lubricity, and improving mildness and cleansing. Endifoam® foam boosters are easily incorporated into cleansing formulations at any mixing temperature.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Endifoam® FB-820	Highly concentrated, aqueous, multi-purpose additive for cleansing products. Based on a proprietary, hydrolyzed corn starch, it acts to boost foam volume and lubricity, increase viscosity, and reduce irritation. It is easily incorporated into cleansing formulations at any mixing temperature. INCI: Hydrolyzed Corn Starch (and) Cocamidopropyl Betaine	Liquid	Body wash, shower gel, facial cleanser, hand soap
Endifoam® FB-830	Highly concentrated, aqueous, multi-purpose additive for cleansing products, based on a proprietary, hydrolyzed corn starch which acts to boost foam volume and lubricity. Endifoam® FB-830 also incorporates Olive Oil Glycereth-8 Esters, a water-soluble olive oil, to improve skin feel and moisturization, as well as Cocamidopropyl Betaine to improve viscosity and reduce irritation. It is easily incorporated into cleansing formulations at any temperature. INCI: Hydrolyzed Corn Starch (and) Cocamidopropyl Betaine (and) Olive Oil Glycereth-8 Esters	Liquid	Body wash, shower gel, facial cleanser, hand soap
Endifoam® FB-840	Unique, concentrated, aqueous foam booster and irritation-ameliorating agent based on a proprietary, hydrolyzed corn starch, and mild, vegetable-derived surfactants. Add to cleansing formulations to improve gentleness and to add a rich luxurious lather. INCI: Hydrolyzed Corn Starch (and) Disodium Cocoamphodiacetate (and) Cocamidopropyl Betaine	Liquid	Body wash, shower gel, facial cleanser, hand soap
Endifoam® FB-850	Highly concentrated, aqueous, multi-purpose additive for cleansing products. It is based on a proprietary, hydrolyzed corn starch, which acts to boost foam volume and lubricity, and a naturally derived sugar surfactant, which acts to improve clarity and cleansing. Can be easily incorporated into cleansing formulations at any mixing temperature. INCI: Hydrolyzed Corn Starch (and) Capryloyl/Caproyl Methyl Glucamide	Liquid	Body wash, shower gel, facial cleanser, hand soap

ENDIMOIST®

The EndiMoist® line offers a variety of high-purity Sodium Hyaluronate products in powder and solution, with different molecular weights for diverse performance and application needs. Sodium Hyaluronate has a smaller molecular size than Hyaluronic Acid, which makes it especially easy to penetrate and able to hold up to 1,000 times its weight in water. EndiMoist® products are ECOCERT-compliant, non-GMO and non-animal-derived.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
EndiMoist® 4HA	A combination of four types of Sodium Hyaluronate which work together to form a 3D network to target all layers of the skin to replenish and maintain moisture, making skin feel smooth and elastic.	Solution	Skincare, color cosmetics, haircare, sun care
EndiMoist® HA	The most popular grade of Hyaluronic Acid. Hyaluronic Acid has been known to assist in skin moisturization, scavenge free radicals, impart anti-wrinkle, anti-aging, anti-irritation, and anti-inflammatory properties. (1,000 kDa to 1,800 kDa)	Solid	Skincare, color cosmetics, haircare, sun care
EndiMoist® HA Solution	A ready-to-use form of Hyaluronic Acid. It saves time when formulating due to being pre-dispersed in water.	Solution	Skincare, color cosmetics, haircare, sun care
EndiMoist® HMW	Protects the skin barrier against moisture loss with long-term efficacy. This product has the same pH range as conventional HA, but with a higher molecular weight. (<1,800 kDa)	Solid	Skincare, color cosmetics, haircare, sun care
EndiMoist® LMW	Penetrates the dermis quickly and has high moisture retention from the inside and outside. It has the same pH range as conventional HA but with a lower molecular weight. (10 kDa to 1,000 kDa)	Solid	Skincare, color cosmetics, haircare, sun care
EndiMoist® LMW 20-40	Penetrates the dermis quickly and has high moisture retention from the inside and outside. It has the same pH range as conventional HA, but with a much lower molecular weight. (200 kDa to 400 kDa)	Solid	Skincare, color cosmetics, haircare, sun care
EndiMoist® MHA	The new generation Oligo Sodium Hyaluronate. It is produced by enzymatic degradation, thus, resulting in higher purity, high antioxidant activity, high moisture retention, and high capacity for sun repair. (<10 kDa)	Solid	Skincare, color cosmetics, haircare, sun care
EndiMoist®3OS	A mixture of three different molecular weights of Sodium Hyaluronate dispersed in botanic oils created via a unique microsphere technology which allows it to be easily incorporated into oil-based formulations.	Ointment	Skincare, color cosmetics, haircare, sun care
EndiMoist® OS	A low molecular weight Sodium Hyaluronate dispersed in botanic oils created via a unique microsphere technology which allows it to be easily incorporated into oil-based formulations. (<10 kDa)	Ointment	Skincare, color cosmetics, haircare, sun care
EndiMoist® OSLA	A low molecular weight of Sodium Hyaluronate dispersed in Meadowfoam Seed Oil via a unique microsphere technology which allows it to be easily incorporated into oil-based formulations. (<10 kDa)	Ointment	Skincare, color cosmetics, haircare, sun care

A macro photograph showing numerous spherical oil droplets of varying sizes suspended in water. The droplets are translucent with a yellowish-green hue, and their surfaces are highly reflective, creating bright highlights and dark shadows that give them a three-dimensional appearance. The background is a light, slightly hazy green, and the overall composition is dense and textured.

Endinol® MILD is an innovative line of surfactants and unique surfactant blends that offer a variety of options including amino-acid derived, plant-derived, natural, and sulfate-free mild surfactants.

ENDINOL® MILD ALKYL POLYGLUCOSIDES

Endinol® MILD Alkyl Polyglucosides from Coast Southwest are nonionic surfactants which are 100% natural, renewable, plant-derived, and GMO-free. This line offers excellent foaming and cleansing properties while limiting irritation.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Endinol® MILD CC-1250	Ultra-mild, high foaming, naturally occurring surfactant. INCI: Coco-Glucoside	Liquid	Sensitive skin cleanser
Endinol® MILD CG-850	Ultra-mild, naturally occurring surfactant with exceptional clarity. INCI: Caprylyl/Capryl Glucoside	Liquid	Secondary surfactant to improve clarity and stability in formulations
Endinol® MILD DG-1050	Ultra-mild, high foaming, naturally occurring surfactant. INCI: Decyl Glucoside	Liquid	Exceptional wetting, foaming, and detergency properties
Endinol® MILD LG-1250	Ultra-mild, high foaming, naturally occurring surfactant. INCI: Lauryl Glucoside	Liquid	Sulfate-free shampoo

ENDINOL® MILD AMINO ACID SURFACTANTS

Endinol® MILD is a line of amino acid-derived mild surfactants that addresses the contemporary preferences of formulators for alternative preservatives and of consumers for new technology such as sulfate-free.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Endinol® MILD L-30	A mild surfactant that can form rich and stable creamy foams. It provides functional benefits including foaming, wetting, salt tolerance, and biodegradability. INCI: Sodium Cocoyl Sarcosinate	Liquid	Shampoo, body wash, facial cleanser, HI&I
Endinol® MILD SCGL-UP	An amino acid surfactant widely used as a primary surfactant to create mild, sulfate- and EO-free premium products. INCI: Disodium Cocoyl Glutamate	Liquid	Shampoo, body wash, facial cleanser, HI&I
Endinol® MILD SCGY	A primary/secondary surfactant that is exceptionally mild, even at high concentration. It will provide a luxurious foam in a wide range of applications, such as EO and sulfate and sulfonate-free formulations. INCI: Sodium Cocoyl Glycinate	Liquid	Shampoo, body wash, facial cleanser, HI&I
Endinol® MILD SCT-40	A high foaming anionic surfactant that is compatible with a wide range of surfactants. It has superior washing, moisturizing, emulsifying and softening properties with low irritation to skin. INCI: Sodium Cocoyl Methyl Taurate	Liquid	Shampoo, body wash, facial cleanser, HI&I

ENDIPURE™ MORINGA OIL

Endipure™ Moringa Oil is an exotic oil naturally extracted from the seeds of the moringa oleifera tree, a fast growing leafy species native to the Himalayas. With its impressive oleic acid content, Endipure™ Moringa Oil penetrates deeply into the skin, delivering vital nutrients and also helping the skin and hair retain moisture. Endipure™ Moringa Oil is clear and odorless, and due to the numerous antioxidants it contains, does not become rancid for years after it is produced. Applications include skincare for rejuvenation, wrinkle reduction, and blemish removal, and haircare for stronger and healthier hair.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Endipure™ Moringa Oil	INCI: Moringa Oleifera Seed Oil	Liquid	Skincare, anti-aging, acne-prone skin, haircare

ENDIPURE™ SOAPNUT

Endipure™ Soapnut is a natural foaming surfactant that can also be used as a foam booster. Soapnut contains high levels of natural saponins. These saponins have surface active properties, as they contain both water-soluble and fat-soluble components. Soapnut is comparable to and is a natural alternative for Sodium Laureth Sulfate (SLES) and Sodium Lauryl Sulfate (SLS). The intrinsic emolliency of Endipure™ Soapnut will enhance any cleansing system.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Endipure™ Soapnut	INCI: Sapindus Mukurossi Fruit Extract	Liquid	Foam booster, natural foaming surfactant for haircare and skincare

GLOSSAMER™ L6600

A unique, bio-based, biodegradable polymer produced from purified Tung (China Wood) and Rapeseed Oils. Provides film-forming properties, imparts multi-functional benefits including gloss, moisturization and water-and wear-resistance. It is an ideal natural alternative to synthetic polymers.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Glossamer™ L6600	INCI: Brassica Campestris/Aleurites Fordi Oil Copolymer	Liquid	Face care, body care, sunscreens, haircare, lip gloss, and lip balms

INFINITEC

Infinitec specializes in innovative delivery system technology, offering the most effective systems to make actives function at the highest capacity and deliver the absolute best results. Infinitec is the right solution for your formulation challenges, from capsules specifically developed for sensitive skin, to semi-occlusive systems, from luxurious particles or the most advanced, actively targeted delivery system in cosmetics.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Activys® Anti-Glycation	Reduces accumulation of AGEs bound to collagen, helps reverse up to 18 years of skin glycation, increases the expression of antioxidant genes, and inhibits DNA methylation, protecting collagen from the effects of sugar.	Solution	Skincare, anti-glycation, antioxidant, anti-aging, firming, elasticity
Activys® Anti-Pollution	Inhibits DNA methylation, reduces oxidative stress and heavy metal content, protects from UVB, increases the level of skin antioxidants, and reduces redness and inflammation.	Solution	Skincare, anti-pollution, antioxidant, sensitive skin
Activys® Red-Out	Targets redness that tackles skin immuno-modulation and reinforces skin barrier function to help reduce facial flushing and chronic redness, especially in atopic-prone condition and skin hypersensitivity. Based on curcumin and pine bark extracts.	Solution	Skincare, atopic skin conditions, redness, sensitive skin
CBD Oil Balance for Skin and Scalp	CBD Oil Balance for Skin and Scalp incorporates cannabidiol and hemp oil, both providing strong synergistic activity on oily skin. Infinitec unlocks CBD's therapeutic potential for the treatment of oily skin and scalp using eCapsules® delivery technology to improve CBD stability, skin penetration and bioavailability. eCapsules® are dispersed in water, solving most of the common problems working with oils as actives (i.e. premature oxidation) for formulations targeting oily skin.	Solution	Skincare, oil-control skin and scalp, acne-prone skin, inflamed skin and scalp
eCapsules® ADC	eCapsules® ADC helps reduce dark circles and wrinkles while increasing antioxidant activity, cell renewal, and microcirculation. eCapsules® have all of the advantages of liposomes and polymeric particles but for delivery of oil soluble compounds in an eco-certified lipid nature structure. They improve skin penetration and extend the active ingredient release.	Solution	Skincare, anti-dark circles, anti-wrinkle, antioxidant for eye applications
Nosilfix	A novel hair delivery system that provides a light-weight, natural, protective coating and is silicone-free. The active delivery is based on natural bio-inspired clay micro sponges that have a film-forming effect, sealing in moisture to prevent frizz in extreme humidity. The encapsulated marine algae is rich in polysaccharides and amino acids and is delivered to the hair to keep it supple and elastic.	Solution	Haircare, prevention, repair, anti-frizz, heat protection
PhytosteCol	Plant-based sterols in a capsule that mimic cholesterol functions in cells, help to restore optimal cholesterol level in skin, and restore skin barrier function and hydration levels.	Solution	Skincare, anti-aging, hydration, skin barrier protection, ideal for mature and sensitive skin

Kisolite® *BMP* is a rich mineral matrix of geologic and biogenic origin consisting of Silicon, Iron, Calcium, Magnesium, Potassium, Zinc, and other minerals. Its unique physical properties strengthen the skin's barrier, leaving it refreshed and protected.

JOJOBA DESERT

Jojoba Desert jojoba oil is made from specially selected seeds grown on jojoba shrubs in Israel's Negev Desert. Jojoba Desert jojoba oil is available in golden and colorless. Each category includes four product types: Pure, organic, odorless, and organic odorless. The oils maintain the same inherent special properties and are naturally hypoallergenic.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
JD Hydro Boost	A natural "biome-friendly" Polysaccharide for anti-aging active beauty. An innovative fiber sourced from sugar cane for maximum consistency, featuring unique anti-aging properties.	Liquid	Skincare, face care, sun care, color applications
JD Jojoba Aqua Cream Base	A light and smooth O/W base which combines the unique properties of JD Jojoba Oil with additional ingredients, creating a smooth texture that is easily absorbed by the skin.	Liquid	Skincare, sun care, baby products
JD Jojoba Butter	A unique blend of JD Jojoba Oil, beeswax, and vegetable oils creates a soft and silky jojoba butter. JD Jojoba Butter is nourishing, quickly absorbed by the skin, and leaves a soft and silky feeling. (Vegan option available.)	Butter	Haircare, skincare, lip care, sun care, color cosmetics
JD Jojoba Colorless Oil	Extracted through an automated cold press process, this colorless oil is produced to ensure the highest quality of pure, natural, liquid wax. It is a rich, colorless liquid composed of esters extracted from Jojoba (<i>Simmondsia Chinensis</i>) seeds.	Liquid	Haircare, skincare, lip care, makeup remover, sun care
JD Jojoba Golden Oil	A light oil with golden highlights and a delicate, yet, distinctive natural scent. Odorless version available.	Liquid	Haircare, skincare, lip care, makeup remover, sun care
JD Jojoba Hair Complex	An exclusive blend of natural oils with known benefits for hair. Contains vitamins essential for healthy hair and scalp, and designed specifically for use in hair care products.	Liquid	Haircare, baby products
JD Jojoba Oil Cream Base	A luxuriously light mixture of JD Jojoba Oil and mild surfactant ingredients creates JD Jojoba Oil Cream Base which can be used as a fast-absorbing base for creams, non-sticky lotions, and skin cleansing products, leaving the skin with a silky, soft texture.	Liquid	Haircare, skincare, lip care, sun care, color cosmetics
JD Jojoba Organic Colorless Odorless Oil	This oil is produced to ensure the highest quality of pure, organic, natural liquid wax. It is composed of esters extracted from Jojoba (<i>Simmondsia Chinensis</i>) organic seeds, creating a rich, colorless liquid with beneficial properties.	Liquid	Haircare, skincare, lip care, makeup remover, sun care
JD Jojoba Organic Golden Oil	A pure organic, natural liquid wax, composed of esters extracted from Jojoba (<i>Simmondsia Chinensis</i>) organic seeds. It is a light oil with golden highlights and a delicate, yet, distinctive natural scent. Odorless version available.	Liquid	Haircare, skincare, lip care, makeup remover, sun care
JD Jojoba Silk-like Powder	A natural and safe substitute for talcum powder (talc replacement) and can be used to improve water swelling and thickening.	Powder	Haircare, skincare, lip care, sun care, color cosmetics

KISOLITE® *BMP* BIOGENIC MINERAL POWDER

A mineral-rich clay ethically harvested from the Kisameet Bay Clay Deposit located in a unique nontidal resource on the central west coast of British Columbia, Canada. This revolutionary clay powder provides an abundant source of micro- and macro-minerals and is a safe and valuable ingredient for skincare, personal care, and beauty aid products.

NATURETHIC

Naturethic, based in Barcelona, Spain, is focused on innovation in green ingredient technology that includes bio-based specialties and ferments for cosmetic wellness solutions.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Anti-Pollution Ferment	An anti-pollution ferment derived from yeast fermentation that increases antioxidant levels in skin, reduces heavy metal levels, and protects skin against particulate matter.	Solution	Skincare, anti-pollution, antioxidant
Healerine	Healerine is a ferment obtained from fermentation of Reishi mushrooms, a rare fungi, that, speeds natural epidermal regeneration (epithelization) up to 6 days (time to recover skin barrier function after injury), improves skin integrity, and increases optimum moisturizing levels in skin.	Solution	Skincare, anti-aging, men's skincare
PH4 Natural Lifting Ferment	Derived from trees found in Yosemite, this ferment contains the PH4 enzyme which stimulates collagen fibers synthesis and helps improve the texture, firmness, and elasticity of skin. It promotes healthy cell turnover, increases the ATP in fibroblasts, and induces cell protection against UVB irradiation.	Solution	Skincare, anti-aging, firming, lifting, elasticity

NATURLINE

NaturLine offers simple, bio-based ingredients for skincare, body care, and haircare applications. This product line includes natural solutions for anti-aging, sensitive skin, skin barrier protection, and healthy hair and scalp.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
NaturAqua	Deep hydration for skin and hair, providing continuous hydration to help improve skin's water retention. INCI: Saccharide Isomerate (and) Water (and) Citric Acid (and) Sodium Citrate	Liquid	Haircare, scalp care, skincare
NaturBody	Containing a combination of conjugated linoleic acids (CLA) obtained from sunflower and safflower extracts, NaturBody is ideal for slimming applications, giving a better and smoother look to skin appearance. INCI: Water (and) Isomerized Linoleic Acid (and) Lecithin (and) Glycerin (and) Polysorbate 80	Liquid	Skincare, anti-aging body care
NaturBoost	A preparation of purified natural soy, rice peptides, biotechnologically manufactured superoxide dismutase blend, developed to visibly reduce dark circles and puffy eyes. INCI: Water (and) Glycerin (and) Hydrolyzed Rice Protein (and) Glycine Soja (Soybean) Protein (and) Superoxide Dismutase (and) Sodium Dextran Sulfate	Liquid	Face care, anti-aging for eyes

NaturCol	Marine soluble collagen provides skin protecting properties and excellent moisturizing properties in topical products. Gives a unique skin-feel and works as a water reservoir on the skin. INCI: Water (and) Soluble Collagen (and) Citric Acid	Liquid	Skincare, body care, anti-aging
NaturColProtect	Skin protection against MMP-induced premature aging containing a rice-derived inhibitor of collagenase, also known as matrix metalloproteinases (MMP). INCI: Water (and) Hydrolyzed Rice Protein (and) Glycerin	Liquid	Face care, anti-aging
NaturOxygen	A mixture of cell stimulating actives, including amino acids, from a yeast-derived extract, that enhances oxygen uptake, cell viability and turnover. Fights off skin dullness by stimulating cell metabolism. INCI: Water (and) Glycerin (and) Saccharomyces Lysate (and) Disodium Succinate (and) Ethylhexylglycerin (and) Glutamic Acid (and) Glycine (and) Threonine	Liquid	Face care, anti-aging
NaturElast	High protection and skin hydration contrasts the process of premature aging and gives a soft and velvety appearance. Provides a natural protein layer of protection with excellent smoothing properties to skin. INCI: Water (and) Hydrolyzed Elastin (and) Thylhexylglycerin	Liquid	Skincare, anti-aging, body care, hair care
NaturFilm	Plant-derived hyaluronic acid to improve skin hydration and water retention. Forms a visco-elastic film on the skin that improves skin smoothness and softness with remarkable end-feel. INCI: Water (and) Ceratonia Siliqua Gum (and) Citric Acid (and) Ethylhexylglycerin	Liquid	Skincare, anti-aging
NaturFirm	A combination of microalgae active components and a powerful Polysaccharide that provides an instant, perceivable tightening experience and a long term skin firming effect after multiple applications. INCI: Water (and) Pullulan (and) Nannochloropsis Oculata Extract	Liquid	Skincare, anti-aging, anti-wrinkle
NaturOx-Protect	An aqueous complex of soja peptides, yeast-derived superoxide dismutase and a polysaccharide for anti-aging applications. Minimizes premature aging caused by stress factors and neutralizes free radicals. INCI: Water (and) Glycerin (and) Glycine Soja (Soybean) Protein (and) Superoxide Dismutase (and) Sodium Dextran Sulfate (and) Ethylhexylglycerin	Liquid	Skincare, anti-aging
NaturSensitive	A multi-functional complex extracted from barley wax, argan oil, and shea butter that provides protection from allergic reactions caused by the histamine release. For sensitive and atopic skin, reduces the symptoms of itchy and irritated skin. Immediate soothing and relief. INCI: Butyrospermum Parkii (Shea) Butter (and) Argania Spinosa Kernel Oil (and) Hordeum Vulgare Cera (and) Tocopherol	Lipid mass	Sensitive and atopic skincare, body care, scalp care
NaturSerin	Containing silk protein with strong affinity to keratin, NaturSerin nourishes and hydrates the hair from the inside. It provides a strong semi-occlusive, film-forming potential to both skin and hair for protection, silky feeling, and reducing TEWL and irritation. INCI: Water (and) Hydrolyzed Sericin (and) Ethylhexylglycerin	Liquid	Haircare, skincare

NOVACHEM

Novachem researches, develops, and markets natural and biotechnological active ingredients for the cosmetic industry, with sustainable ingredients from Argentina, using technologies and practices with a positive impact on the planet.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Bluescreen™	Composed of plants native from Patagonia, including Palo Pichi, Marcela, Llantén, and Indian Tobacco, Bluescreen™ fights digital and environmental pollution, preventing photo-aging caused by solar radiation. Increases dermal density and decreases TEWL. Helps reduce expression lines. Promotes hydration and skin barrier protection. INCI: Water (and) Glycerin (and) Alcohol (and) Sodium PCA (and) Plantago Lanceolata Leaf Extract (and) Fabiana Imbricata Leaf/Stem Extract (and) Verbascum Thapsus Extract (and) Achyrocline Satureiodes Flower Extract	Liquid	Skincare, anti-aging, blue light protection, antioxidant
CapilAcid™	ECOCERT- and COSMOS-approved, CapilAcid™ is rich in anthocyanins obtained from Maqui fruit from Patagonia. It protects the lipids of the F-Layer of the hair fiber, which are responsible for maintaining hydrophobicity, low porosity, and hydration. It prevents lipid peroxidation and keratin oxidation of hair fiber and helps to balance the capillary static charge in acid treatments. INCI: Water (and) Glycerin (and) Aristotelia Chilensis Fruit Extract	Liquid	Haircare, antioxidant
Capilmax™	Based on the synergy of Alfalfa (Medicago sativa L.), Hops (Humulus lupulus L.), Rosemary (Rosmarinus officinalis) and Sweet Clover (Melilotus officinalis L.) with 11 amino acids, Capilmax™ application stimulates the action of the hair bulb, revitalizing the hair from the root and strengthening its structure. It increases thickness and stimulates growth, providing volume to the hair. INCI: Water (and) Propylene Glycol (and) Alcohol (and) Sodium PCA (and) Sodium Lactate (and) Arginine (and) Aspartic Acid (and) PCA (and) Glycine (and) Alanine (and) Serine (and) Valine (and) Proline (and) Threonine (and) Isoleucine (and) Histidine (and) Phenylalanine (and) Medicago Sativa Extract (and) Humulus Lupulus Extract (and) Rosmarinus Officinalis Extract (and) Melilotus Officinalis Extract	Liquid	Haircare, thickener, anti-hair loss
Extracell™ Plex	This biotechnological active for hair obtained from the yeasts of the Malbec grape, rebuilds, restores, and protects the hair architecture by providing low molecular weight yeast peptides that act to replace keratin-associated proteins (KAPs) that have been damaged. It provides extra protection to keratin and its disulfide bridges. INCI: Saccharomyces Lysate	Liquid	Haircare, hair repair
Hydraskin™	ECOCERT- and COSMOS-approved, this postbiotic and osmoprotective active ingredient is obtained from the yeasts of the Malbec grape. It is rich in GABA and proline, protecting the skin against osmotic stress induced by the environment. It restores water levels in the skin instantly and maintains hydration long-term. INCI: Saccharomyces Lysate Filtrate	Liquid	Skincare, body care, anti-aging, hydration

Lactobio™	Acts on the skin barrier by enhancing the natural defense of the skin. Thanks to its prebiotic action, it stimulates the growth of beneficial microbial flora, such as Staphylococcus epidermidis and Micrococcus roseus, the most common and important microorganisms commonly found on the skin and contributing to its well-being and health. INCI: Inulin (and) Hydrolyzed Yogurt Protein (Animal-Derived Yogurt)	Liquid	Skincare, body care, microbiome balancing
Lumiglow™	Rich in delphinidins and ellagic acid obtained from Maqui, the most antioxidant fruit on earth from Andean Patagonia, Lumiglow™ prevents and reduces hyperpigmentation, achieving a more uniform skin tone and natural luminosity of the skin. It also helps to reduce redness, irritation, and erythema. INCI: Water (and) Glycerin (and) Aristotelia Chilensis Fruit Extract	Liquid	Skincare, anti-aging, brightening, antioxidant
Novascrub™ Rice	A smart exfoliant with dual action physical plus chemical that is 100% natural, biodegradable and GMO-free. Its rice microparticles are impregnated with a solution of alphahydroxy acids derived from Kiwi fruit. It is an ecological, safe, biodegradable and 100% vegetable alternative. The size of these particles ranges from 200 to 1100 µm, which guarantees deep cleansing, impurities removal, and imperfection correction, leaving the skin soft. INCI: Oryza Sativa Powder (and) Actinidia Chinensis Fruit Extract	Solid	Skincare, body care, anti-aging
Peptizinc™	A natural active ingredient composed of zinc peptides and six plants, including super foods, that work synergistically to reduce the factors that increase hair oiliness and dandruff production. INCI: Zinc Chloride (and) Hydrolyzed Wheat Protein (and) Cinnamomum Zeylanicum Bark Extract (and) Thymus Vulgaris (Thyme) Extract (and) Brassica Oleracea Acephala Extract (and) Spinacia Oleracea (Spinach) Leaf Extract (and) Malva Sylvestris (Mallow) Flower/Leaf/ Stem Extract (and) Hamamelis Virginiana (Witch Hazel) Leaf Extract	Liquid	Scalp care, oily control
Phytoscreen™ Patagonia	A 100% vegetable active ingredient composed of Yarrow, Indian Tobacco, Palo pichi, and Marcela enriched with Arginina-PCA. Its phytochemical composition ensures a dual photoprotective barrier (UVB+UVA) and ample antioxidant capacity, protecting the cuticle. Its formula, enriched with Arginina-PCA block, prevents color washing in dyed hair, favoring shine and humidity. INCI: Water (and) Glycerin (and) Alcohol (and) Sodium PCA (and) Arginine (and) Achyrocline Satureioides Flower Extract (and) Verbascum Thapsus Extract (and) Fabiana Imbricata Leaf/Stem Extract (and) Achillea Millefolium Extract	Liquid	Haircare, antioxidant
Zinc Sebum™	A composition of Zinc Peptides, Cinnamon, Thyme, Mallow and Witch Hazel with astringent and sebonizing action. Ideal for the treatment of acne and oily skin. It provides hydration and has a decongestive action on the skin, a sebonormalizing action. INCI: Zinc Chloride (and) Hydrolyzed Wheat Protein (and) Cinnamomum Zeylanicum Bark Extract (and) Thymus Vulgaris Extract (and) Malva Sylvestris Flower/Leaf/Stem Extract (and) Hamamelis Virginiana Leaf Extract	Liquid	Skincare, acne, oily-prone skin

Olivatis® Emulsifiers are globally compliant, sustainable, high-performing ingredients derived from olive oil. The Olivatis® line imparts a luxurious skin feel and elegant texture while providing stability to the finished product. Olivatis® includes PEG-free and Cosmos-approved options as well as conventional ingredients.

OLIVATIS® EMULSIFIERS

Olivatis® is a family of high-performing, natural emulsifiers from Medolla Iberia, S.L. These novel ingredients are derived from olive oil and are GMO-free. Olivatis® emulsifiers are globally compliant, sustainable, and ideal for nonionic systems. Olivatis® 12C, Olivatis® 18, Olivatis® 19, and Olivatis® 20 are ECOCERT- and COSMOS-approved. Olivatis® 21 is a naturally derived raw material under ISO 16128.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Olivatis® 12C	A green product derived from vegetable raw materials. It is a PEG-free and palm-free W/O emulsifier, has excellent water repellency for water in oil formulations, produces very light emulsions with silky-smooth feel, and is a great color disperser and crystal promoter. ECOCERT- and COSMOS-approved.	Liquid	Lip applications, moisturizer, sunscreen, baby products
Olivatis® 15C	A water-soluble, pure olive oil, produced by an exclusive trans-esterification process where part of the glyceric fraction of olive oil is substituted by PEG-8. This process results in a superior product with a clear color, practically undetectable odor that is free of impurities. In hair and skincare, it imparts a silicone-like lubricity and feel without being a silicone derivative.	Liquid	Shampoo, shower gel, mild cleansing foam, tonics, and aqueous splashes
Olivatis® 18	An ultra-mild O/W emulsifier used in a wide range of applications from butters to skin and hair lotions. It is PEG-free, moderately anionic, and is derived entirely from natural raw materials. It has a light and silky feel, excellent spreadability, long-lasting moisturizing effect, is effective with oils of different nature and polarity, and is a great liquid and crystal promoter. ECOCERT- and COSMOS-approved.	Liquid	Skincare, sun care, color applications
Olivatis® 19	A PEG-free, liposome-promoting, texture enhancing O/W emulsifier. It is a palm-free ingredient, derived entirely from natural raw materials, adds a velvety touch to skin, adheres to the surface of hair with a non-sticky effect, has no detrimental effect on foam, no effect of viscosity of emulsions, and improves combing, smoothness, and shine in shampoos. ECOCERT- and COSMOS-approved.	Liquid	Bath oil, pre-shave oil, bath melts, bath butter
Olivatis® 20	A PEG-free, ultra-mild, universal O/W emulsifier that meets formulators' needs for more natural hydrophilic structures. Hot or cold processable, particularly recommended for fluid emulsions, wide pH and temperature tolerant, an alternative to derivatives of PEGs and propylene oxides. ECOCERT- and COSMOS-approved.	Liquid	Bath bombs, bath salts, conditioning cleanser, make-up remover, sun care, skincare, color applications
Olivatis® 21	The newest addition to this family of high-performing emulsifiers, it is an O/W emulsifier that is a naturally derived raw material under ISO 16128. A universal, non-ionic, palm-free emulsifier that can be used in cold process. With a high HLB, it promotes solubility with most natural oils and butters. It provides skin and hair with a silky, soft after feel.	Liquid	Shower products, ethnic hair butter, make-up remover, hair oil, massage oil
Poleryl 10 LA	An outstanding non-ionic, PEG-free, 100% naturally derived solubilizer. Suitable to use in premium, transparent, and natural water-based formulations.	Liquid	Haircare, toiletries

SHARON PRESERVATIVES

For over three decades, Sharon Laboratories has been effectively providing preservative solutions for the global personal care market. As one of the world's largest producers of preservation solutions, Sharon has the access and expertise to provide the custom-blended solutions to meet customers' exact needs. Sharon's specialists can assist in determining the preservative system that best suits our customers' product needs. Sharon's state-of-the-art analytical and microbiological technology, ISO certification, and environmentally friendly production facilities, ensure product safety and quality.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Biosecur C160S Personal Care	Broad spectrum preservative blend. INCI: Glycerin (and) Citrus Reticulata Fruit Extract (and) Citrus Aurantium Amara Fruit Extract (and) Citrus Sinensis Peel Extract (and) Ascorbic Acid (and) Citric Acid (and), Lactic Acid (and) Water. USE: (0.1% to 2%)	Liquid	Personal care, sunscreen, color cosmetics, wet wipes, baby care
Biosecur C320C Oral Grade	Broad spectrum preservative blend. INCI: Glycerin (and) Citrus Reticulata Fruit Extract (and) Citrus Aurantium Amara Fruit Extract (and) Citrus Sinensis Peel Extract (and) Ascorbic Acid (and) Citric Acid (and) Lactic Acid (and) Water. USE: (0.1% to 2%)	Liquid	Personal care, sunscreen, color cosmetics, wet wipes, baby care
Biomix ECO	Broad spectrum preservative blend. INCI: Benzyl Alcohol (and) Glycerin (and) Citrus Reticulata Fruit Extract (and) Citrus Aurantium Amara Fruit Extract (and) Citrus Sinensis Peel Extract (and) Ascorbic Acid (and) Citric Acid (and) Lactic Acid (and) Demineralized Water. USE: (<1%)	Liquid	Personal care, sunscreen, color cosmetics, wet wipes
Biomix Clear	Broad spectrum preservative blend. INCI: Phenoxyethanol (and) Glycerin (and) Citrus Reticulata Fruit Extract (and) Citrus Aurantium Amara Fruit Extract (and) Citrus Sinensis Peel Extract (and) Ascorbic Acid (and) Citric Acid (and) Lactic Acid (and) Demineralized Water. USE: (<1%)	Liquid	Personal care, sunscreen, color cosmetics, wet wipes
Biomix Free I	Broad spectrum preservative blend. INCI: Phenethyl Alcohol (and) Glycerin (and) Citrus Reticulata Fruit Extract (and) Citrus Aurantium Amara Fruit Extract (and) Citrus Sinensis Peel Extract (and) Ascorbic Acid (and) Citric Acid (and) Lactic Acid (and) Demineralized Water. USE: (<1%)	Liquid	Personal care, sunscreen, color cosmetics, wet wipes
Biomix Free II	Broad spectrum preservative blend. INCI: Phenylpropanol (and) Glycerin (and) Citrus Reticulata Fruit Extract (and) Citrus Aurantium Amara Fruit Extract (and) Citrus Sinensis Peel Extract (and) Ascorbic Acid (and) Citric Acid (and) Lactic Acid (and) Demineralized Water. USE: (<1%)	Liquid	Personal care, sunscreen, color cosmetics, wet wipes
Biomix Free CG	Broad spectrum preservative blend. INCI: Caprylyl Glycol (and) Glycerin (and) Citrus Reticulata Fruit Extract (and) Citrus Aurantium Amara Fruit Extract (and) Citrus Sinensis Peel Extract (and) Ascorbic Acid (and) Citric Acid (and) Lactic Acid (and) Demineralized Water. USE: (<1%)	Liquid	Personal care, sunscreen, color cosmetics, wet wipes
Biomix PURE I	Broad spectrum preservative blend. INCI: Natural Benzyl Alcohol (and) Glycerin (and) Citrus Reticulata Fruit Extract (and) Citrus Aurantium Amara Fruit Extract (and) Citrus Sinensis Peel Extract (and) Tocopherol (and) Ascorbic Acid (and) Citric Acid (and) Lactic Acid (and) Demineralized Water. USE: (<1%)	Liquid	Personal care, sunscreen, color cosmetics, oral care, wet wipes

Biomix PURE II	Broad spectrum preservative blend. INCI: Natural Phenethyl Alcohol (and) Glycerin (and) Citrus Reticulata Fruit Extract (and) Citrus Aurantium Amara Fruit Extract (and) Citrus Sinensis Peel Extract (and) Tocopherol (and) Ascorbic Acid (and) Citric Acid (and) Lactic Acid (and) Demineralized Water. USE: (<1%)	Liquid	Personal care, sunscreen, color cosmetics, wet wipes
Sharosense Plus 181	Broad spectrum preservative blend. INCI: Maltol (and) Polyquaternium-80. USE: (0.50% to 0.70%)	Powder	Personal care, sunscreen, color cosmetics, oral care, wet wipes
Sharosense Plus 181-N	Broad spectrum preservative blend. INCI: Maltol (and) Polyquaternium-80. Derived from natural Maltol (bioprocessed from Isokoic acid) and Polyquaternium-80 is made from naturally-derived polymerized alkyl polyglucosides. Derived from renewable resources. USE: (0.50% to 0.70%)	Powder	Personal care, sunscreen, color cosmetics, oral care, wet wipes
Sharosense Plus 183	Broad spectrum preservative blend. INCI: Maltol (and) Polyquaternium-80, Didecylidimonium Chloride. USE: (0.50% to 0.70%)	Powder	Personal care, sunscreen, color cosmetics, oral care, wet wipes
Sharosense Plus 184	Broad spectrum preservative blend. INCI: Maltol (and) Didecylidimonium Chloride. USE: (0.50% to 0.70%)	Powder	Personal care, sunscreen, color cosmetics, oral care, wet wipes

NATURAL VEGETABLE OILS AND BUTTERS

Vegetable oils and butters are rich in essential fatty acids with strong antioxidant properties making them ideal for use in hair- and skin-conditioning applications. Since they help to protect skin and restore moisture, vegetable oils and butters are recommended for lip care, dry and sensitive skin, hand care and body care.

TRADE NAME	DESCRIPTION	FORM	APPLICATION
Canola Oil	INCI: Canola Oil	Liquid	Skincare, haircare, body care
Corn Oil	INCI: Zea Mays (Corn) Oil	Liquid	Skincare, haircare, body care
Cotton Oil	INCI: Gossypium Herbaceum (Cotton) Seed Oil	Liquid	Skincare, haircare, body care
Safflower Oil	INCI: Carthamus Tinctorius (Safflower) Seed Oil	Liquid	Skincare, haircare, body care
Sesame Oil	INCI: Sesamum Indicum (Sesame) Seed Oil	Liquid	Skincare, haircare, body care
Shea Butter	INCI: Butyrospermum Parkii (Shea) Butter	Butter	Skincare, haircare, body care
Soybean Oil	INCI: Glycine Soja (Soybean) Oil	Liquid	Skincare, haircare, body care
Sunflower Oil	INCI: Helianthus Annuus (Sunflower) Seed Oil	Liquid	Skincare, haircare, body care
Sweet Almond Oil	INCI: Prunus Amygdalus Dulcis (Sweet Almond) Oil	Liquid	Skincare, haircare, body care
