BELLATIVA[®]

Bellativa[®] Gold C Bright

INCI: Water, Xanthan Gum, Gold, Ferulic Acid, Ascorbic Acid

Recommended Use Level: 0.3% – 0.5%

Description

A powerful pairing of Ferulic Acid and Ascorbic Acid conjugated to a gold delivery system that provides antioxidant protection and brightening activity to promote a healthier, more even skin tone.

Gold Delivery System

- Enhances the absorption, stability, and bioavailability of the active ingredients
- Provides a sustained release for longer-lasting benefits
- High efficacy at low usage level
- Less degradation and less waste
- Non-nano: >100 nm particle size

Features and Benefits

- Ferulic Acid enhances the stability of Ascorbic Acid
- Superior antioxidant activity
- Helps protect against ROS and oxidative damage
- Boosts collagen synthesis, increasing firmness and elasticity
- Increases cell viability
- Reduces tyrosinase activity for a brighter complexion

BELLATIVA®

Bellativa® Gold Q10

INCI: Water, Xanthan Gum, Gold, Glutathione, Ubiquinone

Recommended Use Level: 0.3% – 0.5%

Description

An antioxidant powerhouse consisting of Coenzyme Q10 (Ubiquinone) and Glutathione conjugated to gold to protect skin from environmental stressors and prevent further degradation to help restore and maintain skin's appearance.

Gold Delivery System

- Enhances the absorption, stability, and bioavailability of the active ingredients
- Provides a sustained release for longer-lasting benefits
- High efficacy at low usage level
- Less degradation and less waste
- Non-nano: >100 nm particle size

Features and Benefits

- Master antioxidant defense
- Protects skin from environmental stressors
- Stimulates cellular energy
- Boosts collagen synthesis, improving skin firmness
- Maintains cell redox balance
- Reduces oxidative stress

BELLATIVA[®]

Bellativa[®] Gold Renewal

INCI: Water, Xanthan Gum, Gold, Palmitoyl Nonapeptide-51, Palmitoyl Nonapeptide-52, Palmitoyl Oligopeptide-244
Recommended Use Level: 0.3%

Description

A novel combination of three mimetic peptides conjugated to a gold delivery system specifically designed to upregulate and activate TGF- β 1 and TGF- β 2, while simultaneously downregulating TGF- β 3. The down regulation of TGF- β 3 allows for TGF- β 1 and TGF- β 2 to dominate, promoting a more robust formation of ECM components such as increased skin density, smoothness, and firmness.

Gold Delivery System

- Enhances the absorption, stability, and bioavailability of the active ingredients
- Provides a sustained release for longer-lasting benefits
- High efficacy at low usage level
- Less degradation and less waste
- Non-nano: >100 nm particle size

Features and Benefits

- Stimulates collagen and elastin synthesis
- Reduces the appearance of fine lines and wrinkles
- Improves skin texture and elasticity
- Helps prevent and repair damage to the ECM
- Maintains a balanced state of skin health

BELLATIVA®

Bellativa® Golden A

INCI: Water, Xanthan Gum, Gold, Retinol, Palmitoyl Tripeptide-5, Hyaluronic Acid

Recommended Use Level: 0.3% – 0.5%

Description

A combination of three powerhouse, anti-aging ingredients conjugated to a gold delivery system to accelerate the absorption of Retinol and Hyaluronic Acid with an extended release. Palmitoyl Tripeptide-5 provides a synergistic effect with Retinol for enhanced performance and visible results.

Gold Delivery System

- Enhances the absorption, stability, and bioavailability of the active ingredients
- Provides a sustained release for longer-lasting benefits
- High efficacy at low usage level
- Less degradation and less waste
- Non-nano: >100 nm particle size

Features and Benefits

- Delivers stable Retinol with enhanced absorption, reducing irritation potential
- Stimulates collagen synthesis
- Reduces the appearance of fine lines and wrinkles
- Boosts elasticity, improving skin firmness
- Maintains skin moisturization

BELLATIVA[®]

Bellativa[®] Golden Glow C

INCI: Water, Sorbitol, Xanthan Gum, Ascorbic Acid, Gold, Glutathione

Recommended Use Level: 0.3% – 0.5%

Description

The synergistic effect of conjugating pure Ascorbic Acid and Glutathione to a gold delivery system provides a sustained release of Vitamin C to the skin with outstanding stability, enhancing efficacy and overall performance.

Gold Delivery System

- Enhances the absorption, stability, and bioavailability of the active ingredients
- Provides a sustained release for longer-lasting benefits
- High efficacy at low usage level
- Less degradation and less waste
- Non-nano: >100 nm particle size

Features and Benefits

- Delivers stable, pure Ascorbic Acid, not a Vitamin C derivative
- High antioxidant activity combining Ascorbic Acid with Glutathione
- Protects against free radicals (ROS)
- No pro-oxidant risk because GSH modulates the redox activity of Ascorbic Acid
- Boosts collagen synthesis, improving skin firmness

BELLATIVA®

Bellativa® Golden Matrix

INCI: Water, Gold, Xanthan Gum, Palmitoyl Pentapeptide-4, Asiaticoside

Recommended Use Level: 0.3% – 0.5%

Description

A unique ingredient combination of well-known Palmitoyl Pentapeptide-4 and Asiaticoside from Centella Asiatica conjugated to a gold delivery system that provides multifunctional, anti-aging activity. Bellativa® Golden Matrix addresses the underlying causes of skin aging and improves the skin's appearance by reducing fine lines and wrinkles.

Gold Delivery System

- Enhances the absorption, stability, and bioavailability of the active ingredients
- Provides a sustained release for longer-lasting benefits
- High efficacy at low usage level
- Less degradation and less waste
- Non-nano: >100 nm particle size

Features and Benefits

- Asiaticoside is a natural telomerase activator
- Boosts collagen production
- Stimulates the synthesis of ECM components
- Reduces fine lines and wrinkles
- Improves skin texture and elasticity for a more youthful appearance

BELLATIVA®

Bellativa® Diamond RSVP

INCI: Water, Xanthan Gum, Diamond Powder, Resveratrol, Palmitoyl Pentapeptide-4

Recommended Use Level: 0.3% – 0.5%

Description

A multifunctional, anti-aging ingredient that combines the powerful antioxidant Resveratrol with wrinkle-fighting Palmitoyl Pentapeptide-4 conjugated to a luxurious diamond delivery system to protect skin and promote a smoother, healthier appearance.

Diamond Delivery System

- Enhances the absorption, stability, and bioavailability of the active ingredients
- Provides a sustained release for longer-lasting benefits
- High efficacy at low usage level
- Less degradation and less waste
- Non-nano: >100 nm particle size

Features and Benefits

- Powerful antioxidant properties that neutralize and inhibit the formation of ROS (reactive oxygen species)
- Increases ATP levels as a source of cell energy
- Assists in increasing collagen production, improving dermal density
- Reduces wrinkles and fine lines
- Improves tone and elasticity
